Contents of Volume 27

No. 1, Spring 2000

Rewarming from hypothermia leads to elevated plasma lipopolysaccharide concentrations
S. L. Gaffin, F. B. Dietz, J. G. Brock-Utne, T. C. Andrews, R. A. Jaffe, G. K. Steinberg, and *R. F. Wallace* 1

Effects of weather on incidence of attempted suicide by carbon monoxide poisoning
A. J. Geltzer, A. M. B. Geltzer, R. G. Dunford, and *N. B. Hampson* 9

Hyperbaric oxygen in the treatment of delayed radiation injuries of the extremities
J. J. Feldmeier, R. D. Heimbach, D. A. Davolt, M. J. McDonough, B. J. Stegmann, and *P. J. Sheffield* 15

Screening for oxygen sensitivity in U.S. Navy combat swimmers
K. C. Walters, M. T. Gould, E. A. Bachrach, and *F. K. Butler, Jr.* 21

Lack of effect of anti-C5a monoclonal antibody on endothelial injury by gas bubbles in the rabbit after decompression
V. Nossum, A. Hjelde, K. Bergh, and *A. O. Brubakk* 27

Hyperbaric stress during saturation diving induces lymphocyte subset changes and heat shock protein expression
H. Matsuo, N. Shinomiya, and *S. Suzuki* 37

Case Report

Cigarette smoking and transcutaneous oxygen tensions: a case report
M. B. Strauss, D. M. Winant, A. G. Strauss, and *G. B. Hart* 43

Letters

Hyperbaric oxygen vs. normobaric oxygen in carbon monoxide poisoning
I. Kehat and *A. Shupak* 47

Failure to assess motivation, need to consider psychiatric variables, and absence of comprehensive examination: a skeptical review of neuropsychologic assessment in carbon monoxide research
K. L. Schiltz 48

Abstracts

From current literature 51
French translations 61
Spanish translations 64

No. 2, Summer 2000

Effects of hyperbaric oxygen on ventricular performance, pulmonary blood volume, and systemic and pulmonary vascular resistance
F. L. Abel, J. E. McNamee, D. L. Cone, D. Clarke, and *J. Tao* 67

Influence of gender and menstrual cycle on a cold air tolerance test and its relationship to thermosensitivity
E. L. Glickman-Weiss, C. C. Cheatham, N. Caine, M. Blegen, and *J. Marcinkiewicz* 75

Effects of smoking on cost and duration of hyperbaric oxygen therapy for diabetic patients with non-healing wounds
G. H. Otto, C. Buyukcakir, and *C. E. Fife* 83
Hearing function in a hyperbaric environment
L. L. Mendel, M. E. Knafelc, and *E. A. Cudahy* 91
Performance of the Baxter Flo-Gard 6201 volumetric infusion pump for monoplace chamber applications
D. Ray, L. K. Weaver, S. Churchill, and *D. Haberstock* 107

Abstracts
From current literature 113
French translations 118
Spanish translations 121

No. 3, Fall 2000

Effects of breathing air at 4 atm abs: evidence for a change in strategy
L. Sparrow, D. Mathieu, F. Wattel, A. Lancry, and *R. Neviere* 125
Doppler–echocardiographic findings in professional divers
L. E. B. Stuhr, E. Gerdts, and J. *E. Nordrehaug* 131
Psychometric testing of a health survey for field reproting of decompression outcome
D. Doolette 137
Computation of decompression tables using continuous compartment half-lives
S. M. Egi and *N. M. Gürmen* 143
Effects of platelet-activating factor and hyperbaric oxygenation on antioxidant defense and duodenal contractility
G. Yildirim, E. Koç, M. Başuğ, H. Fiçicilar, I. E. Akçil, and *N. Zaloğlu* 155

Technical Communication
Role of otoscan-assisted laser myringotomy in hyperbaric oxygen therapy
J. P. Bent, M. M. April, R. F. Ward, and *A. M. Packard* 159

Letter
Response to letters from volume 27, no. 1, spring 2000
C. D. Schienkestrel, M. Bailey, P. S. Myles, K. Jones, D. J. Cooper, I. L. Millar,and D. V. Tuxen 163

Abstracts
From current literature 165
French translations 170
Spanish translations 172

No. 4, Winter 2000

Findings from a simulated disabled submarine survival trial
C. M. House, J. R. House, and E. H. N. Oakle 175
Neutrophil sequestration and the effect of hyperbaric oxygen in a rat model of temporary middle cerebral arte occlusion
D. N. Atochin, D. Fisher, I. T. Demchenko, and S. R. Thom 185
Ventriculo-peritoneal shunt performance under hyperbaric conditions
E. T. Huang, K. R. Hardy, J. M. Stubbs, R. A. Lowe, and *S. R. Thom.* 191

Adjunctive hyperbaric oxygenation in macular edema of vascular origin
R. Krott, R. Heller, S. Aisenbrey, and K-U. Bartz-Schmidt 195
Effect of hyperbaric oxygen therapy on fetal spinal grafts: an experimental study
M. Kutlay, A. Çolak, N. Demircan, O. N. Akin, K. Kibici, K. Dündar, and S. Yildirim 205

Letters
Letters to the editor
J. Berry, M-F. Doursout, and *B. D. Butler* 215
The authors respond
F. L. Abel and *J. E. McNamee* 215

Abstracts
